Create block diagrams using web application <https://app.diagrams.net/>

## 1 Problem 1

Create a block diagram representing an algorithm for making tea. Try to make it as detailed as possible

## 2 Problem 2

Create a block schema representing an algorithm allowing user to input some numbers into a computer and save them to memory. Remember:

1. input of a single character is separate operation
2. algorithm will loop until user will nput a key that is NOT a number

## 3 Problem 3

Create a block diagram that checks in number inputted from keyboard is even.
